RESOLUTION ON THE ANNUAL REPORT OF THE PORT OFFICER, CALCUTTA, FOR THE YEAR 1908-09.

No. 1945Marine.

Government of Bengal.

MARINE DEPARTMENT.

Dated Calcutta, the 11th August 1909.

RESOLUTION.

READ—

Letter from the Port Officer, Calcutta, No. 2863, dated the 12th July 1909, submitting the Annual Report of his Department for 1908-09.

THE strength of the Pilot service at the close of the year was 54 Pilots and 15 Leadsmen Apprentices, against 52 and 16 at the close of 1907-08.

During the year one Licensed Branch Pilot retired. Two Leadsmen Apprentices were removed from the service—one on account of incompetency and the other on account of bad health. Four Leadsmen Apprentices were recruited from England.

2. The number of vessels visiting the port increased during the year: 1,642 vessels with gross tonnage of 6,241,062 arrived, while 1,636 vessels with gross tonnage of 6,228,336 left. The corresponding numbers in the previous year were 1,567 with tonnage of 6,010,081 and 1,562 with tonnage of 5,985,547.

The average tonnage of vessels entering and leaving the port was 3,803. The pilotage receipts amounted to Rs. 13,88,898, against Rs. 13,49,151 in 1907-08.

3. The number of vessels drawing over 21 feet entering and leaving the port increased, being 349 and 914, against 334 and 896 in the previous year. Many vessels, chiefly in the coal trade, enter the port in ballast and leave fully loaded.

4. Only two vessels were neaped owing to insufficient water over the bars in the river channel. The Lieutenant-Governor is glad to note that no vessel was detained during the year for want of a Pilot.

5. The number of collisions and groundings during the year were 5 and 18, against 5 and 20 in the previous year. One collision and two groundings were held to be due to an error of judgment on the part of the Pilot.

6. Forty-eight preliminary enquiries were held by the Port Officer. Of these, one was referred to a Departmental Court and four to Special Courts of Enquiry. Besides the above, four Special Courts of Enquiry were held in connection with casualties which occurred to vessels in charge of Assistant Harbour Masters; one magisterial enquiry, under section 34 of the Inland Steam-vessels Act, 1884, was also held. No Court under Act XII of 1859 was held during the year.

7. Ninety-five candidates appeared at the examinations for the grant of Colonial and Home Trade certificates of competency, of whom 54 passed; 450 candidates appeared at the examinations for the grant of certificates of competency as Masters, Serangs, Engineers and Engine-drivers, under the Inland Steam-vessels Act, 1884, of whom 173 passed. There was no candidate for the license of a steam-tug pilot.

8. Mr. G. Robertson was First Engineer and Shipwright-Surveyor till the afternoon of the 30th October 1908, when he proceeded on 13 months' furlough. Mr. E. G. Venn, R.I.M., Second Engineer and Shipwright-Surveyor, has been acting as First Engineer and Shipwright-Surveyor since that date, and Mr. F. Olford, R.I.M., Third Engineer and Shipwright-Surveyor, as Second Engineer and Shipwright-Surveyor, while Mr. H. R. Stark has been acting as Third Engineer and Shipwright-Surveyor.

9. Commander St. L. S. Warden, R.I.M., presided over the Department during the year except for 90 days from 2nd July to 2nd October, when he was on privilege leave, Commander F. Dobson, R.I.M., acting for him. Lieutenant H. E. Harold continued as Assistant Port Officer and Shipping Master throughout the year.

By order of the Lieutenant-Governor of Bengal,

T. BUTLER,

Secy. to the Govt. of Bengal.

GENERAL SUMMARY.—Rain was general all over the Province. The fall was heavy in Darjeeling, Cooch Behar and in parts of Nadia and Khulna, moderate in Howrah, Jessore, Champaran and Muzaffarpur and light elsewhere. More rain is reported to be wanting in parts of the 24-Parganas, Murshidabad, Purnea, Angul, Hazaribagh and Singhbhum. Transplantation of winter rice continues. Harvesting of autumn paddy and jute has commenced. The condition of standing crops is generally fair, but they have been damaged to some extent by heavy rain in Jessore, Khulna and Darjeeling and by floods in Champaran. The price of common rice has risen in Nadia, Angul and Ranchi, and has fallen in Burdwan, Birbhum, Jessore, Patna, Gaya, Champaran, Darbhanga, Cuttack, Balasore, Sambalpur, and Manbhum and in the Bhagalpur Division excepting Darjeeling. Rinderpest is reported from Sambalpur, and ordinary cattle-diseases from Midnapore, Nadia, Jessore, Patna, Shahabad, Champaran, Muzaffarpur, Bhagalpur, Purnea, Angul, Ranchi and Palamau. The fodder and water supply is sufficient.

SUMMARY OF RAINFALL OBSERVATIONS TAKEN IN BENGAL DURING THE MONTH OF JULY 1909.

During July, the rainfall was below the average in all districts of the Province, excepting Darbhanga, Sambalpur, Cuttack, Balasore and Puri, where it was in excess. The deficiency varied from −0·18 inch in Khulna to −7·43 inches in Purnea.

Expressed in percentage figures, South-West Bengal received 76 per cent., Bihar 75 per cent., Orissa 146 per cent. and Chota Nagpur 68 per cent. of the normal fall. Orissa was the only division where the fall was in excess.

In South-West Bengal the rainfall of the first seven months expressed as a percentage was 103 per cent., in Bihar 111 per cent., in Orissa 136 per cent. and in Chota Nagpur 89 per cent.

The following table compares the rainfall in the four divisions during the month of July with the normal fall, the actual being given as a percentage of the normal. The table also shows the actual falls for each of the previous months of the year expressed in the same way, and the last column of the table shows the total rainfall of the past seven months of the year 1909:—

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

o, overcast; d, drizzling rain; g, dark gloomy; t, thunder; p, passing temporary showers; ☈, thunderstorm.

THE following report is published for general information.

FIRST REPORT ON THE COTTON CROPS OF BENGAL, AUGUST 1909.

(On an average of the five years ending 1907-08, the area under the cotton crop in the territory to which this forecast relates has represented some 0·35 per cent. of the total area under cotton in India).

Explanatory.—This report deals with the area sown and the prospects of the early crop and gives a brief summary of the progress of sowings of the late crop.

Character of the season.—The early crop is important in the Sonthal Parganas, Manbhum, Singhbhum, Sambalpur, Ranchi and Angul. The late crop is chiefly cultivated in North Bihar. Saran has an area under this crop amounting to almost half of the total late cotton area. Sowings of both varieties were effected in the normal season. The early crop which is generally sown before the rainy season is doing well. Fair progress has been made in sowings of the late crop in North Bihar, but in Bankura, Cuttack, Balasore and Angul the crop has not yet been sown. Some damage has been done to the crops in Shahabad by floods.

Area sown.—The area sown with the early crop is estimated at 34,193 acres as against 31,230 acres estimated last year.

Sowings of the late cotton crop have not yet been completed. The area sown up to now is reported to be 27,582 acres as against 28,760 acres given in the first forecast of the cotton crops issued in August last. The area under the crop as shown in the final cotton forecast of 1908 was 32,869 acres.

PRELIMINARY FORECAST OF THE SUGARCANE CROP OF BENGAL FOR 1909.

THE following note is published for general information.

C. G. H. ALLEN,
Offg. Chief Secy. to the Govt. of Bengal.

The 18th August 1909.

DEPARTMENT OF AGRICULTURE, BENGAL.

PRELIMINARY FORECAST OF THE SUGARCANE CROP OF BENGAL, 1909.

(On an average of the five years ending 1907-08, the area under sugarcane in the territory to which this forecast relates has represented some 18·1 per cent. of the total area under this crop in British India.)

Character of the season.—Sugarcane is grown chiefly in Bihar. In the districts north of the Ganges, it is grown without irrigation, while in those on the south of the river as also in other parts of the Province, frequent irrigation is generally necessary in the hot months. In Lower Bengal and Bihar, the rainfall was defective at the time of planting and at the early part of the growth of the crop. Planting in these tracts, though commenced in normal time, was retarded in places, and the growth of the crop was affected for want of timely rain. The rain that followed, however, improved its condition which is reported to be good at present. In Orissa and Chota Nagpur, the weather conditions were generally favourable.

Area planted.—The area planted with sugarcane this year is estimated at 353,700 acres against 375,200 acres estimated to have been cultivated last year. The normal area under the crop has been shown as 430,200 acres. The decrease in the area planted this year is due to want of moisture at the time of planting.

Outturn.—From the district reports attached to this note, it will be seen that in two districts, viz., Sambalpur and the Sonthal Parganas, crops of 105 per cent. are expected to be harvested. Balasore, Angul, Ranchi and Palamau estimate 100 per cent. crops. Eight districts report from 90 to 99 per cent. crops, five districts from 80 to 89 per cent. and eight districts from 70 to 79 per cent. crops. In the remaining six districts, estimates of outturn are reported as follows :— Saran (69 per cent.), Darjeeling (65 per cent.), Patna (63 per cent.), Champaran (62 per cent.), Birbhum (60 per cent.) and Murshidabad (54 per cent.).

According to these estimates the total outturn of the crop for the Province amounts to 81 per cent. of the normal against 62 per cent. estimated for last year.

Other sources of gúr.—The quantity of *gúr* likely to be obtained from the juice of the date palm is estimated at 1,346,137 cwts. and the output of sugar from the palmyra palm is estimated at 15,309 cwts.

FINAL FORECAST OF THE EARLY VARIETY OF THE SESAMUM *(TIL)* CROP OF BENGAL, FOR THE YEAR 1909-10.

THE following note is published for general information.

C. G. H. ALLEN,

Offg. Chief Secy. to the Govt. of Bengal.

The 19th August 1909.

DEPARTMENT OF AGRICULTURE, BENGAL.

FINAL FORECAST OF THE EARLY VARIETY OF THE SESAMUM (*til*) CROP OF BENGAL FOR THE YEAR 1909-10.

(On an average of the five years ending 1907-08, the area under *til* in the territory to which this forecast relates has represented some 5·7 per cent. of the total area under this crop in British India.)

Character of the season.—Of the 24 districts in which the crop is cultivated, Midnapur, Angul, Manbhum, Singhbhum, Jessore, Shahabad and Burdwan are the most important. In Angul, Singhbhum and also in Gaya, sowings begin generally in August and acreages sown with the crop in these three districts are not yet available. In most of the districts, it was found that the soil lacked moisture at the time of sowing. In Jessore only, a very small area could be sown and in Bhagalpur, the crop was not sown. The season was on the whole unfavourable.

Area sown.—The total area sown with the crop is estimated at 35,800 acres (exclusive of the areas in Gaya, Angul and Singhbhum for which estimates are not now available). The area sown last year amounted to 50,000 acres. The normal area under the crop is returned as 63,400 acres.

Outturn.—In Sambalpur alone, more than a normal crop is expected. The 24-Parganas report a 100 per cent. crop. In four districts, the crops vary from 90 to 99 per. cent. and in five districts, they are between 71 and 77 per cent. In nine districts, crops are estimated to be between 40 to 69

per cent. According to the returns of District Officers, the total outturn for the Province works out to 72 per cent. of a normal crop against 70 per cent., which was the estimate shown last year.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No, 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

o, overcast; g, dark gloomy; t, thunder; d, drizzling rain; p, passing temporary showers.

* P. C. Form No. 127A.

6. Those candidates who are considered eligible will be warned that they will have to appear before the Nomination Committee on a date in October or November to be subsequently fixed and communicated to them.

7. Immediately on the expiry of the period allowed for filing applications, each Superintendent of Police will inform the Range Deputy Inspector-General of the number of candidates registered as eligible in his district and will classify them under the heads Hindu, Muhammadan, and special castes.

8. Selection in the districts will be made by the Superintendent of Police and the District Magistrate, who will call up the eligible candidates and select 50 per cent. in excess of the actual number of vacancies allotted to the district.

The District Committee will ordinarily nominate only candidates domiciled in its own district, but if in any district of Bihar sufficient suitable candidates are not available, the Committee may entertain applications from residents of another district of Bihar, or the United Provinces. Hindus and Muhammadans shall be selected, if eligible candidates are available, in the proportion which each class bears to the total population of the district as shown in the table attached. In Orissa as many suitable Uriyas as can be obtained should be selected. In Chota Nagpur and the Sonthal Parganas such suitable Kols, Mundas, Uraons and Sonthals, as are available, should be selected, but at present no proportion can be fixed. The Superintendent shall require selected candidates to produce health certificates in P. C. Form 110 from the Civil Surgeon, and shall then submit to the Range Deputy Inspector-General a list of the candidates selected, in order of selection, stating against each their qualifications and grounds of selection, and with this list, which should bear the District Magistrate's countersignature, he will also send :—

(*i*) The Register of the candidates.
(*ii*) The applications of candidates with their certificates and testimonials and recommendations in original.
(*iii*) The verification rolls of the candidates.
(*iv*) The health certificates of the candidates in P. C. Form 110.

9. The Deputy Inspector-General shall then re-examine these papers, and see that the rules are observed, and that the percentage of Hindus, Muhammadans and Uriyas is properly adjusted for each Division if not for each district. If the number of candidates in any district falls short of requirements, he may make good the deficiency by selection among candidates of other districts.

10. The selection of candidates must be completed by the 15th November in all districts, and the Deputy Inspector-General will submit to the Inspector-General by the 25th idem a list of the nominees in two parts, the first containing the names, district by district, of those most strongly recommended to fill the number of vacancies allotted to the division, the second containing the names of those who constitute the 50 per cent. reserve. With this list will also be submitted the application forms and certificates of all the nominees entered in it, together with their medical certificates in P. C. Form No. 110.

11. The Inspector-General, in consultation with the Deputy Inspectors-General, will personally inspect the nominees at convenient centres on dates which will be duly notified, and after any further examination which may appear necessary will appoint the required number of probationers, and send to each an appointment order directing him to report himself to the Principal, Police Training College, Ranchi, on the date mentioned.

A detailed list of the candidatas appointed will at the same time be sent to the Principal, Police Training College, together with their nomination rolls, verification rolls, medical and other certificates.

These papers will form part of the cadet's appointment papers and will be sent to the Superintendents of Police of the districts to which they are subsequently posted.

12. The candidates appointed will undergo a course of one year's instruction at the Police Training College, Ranchi. The first term usually commences on the 2nd January.

13. At the end of the course those declared by the Examination Committee to have passed will be posted to districts as probationary Sub-Inspectors for a period of two years. At the end of that period those pronounced competent and fit will be confirmed by the Deputy Inspectors-General as Sub-Inspectors. The Inspector-General may discharge a probationary Sub-Inspector at any time prior to his confirmation, if he is satisfied that the probationer is not likely to make a satisfactory police officer.

14. During the period of instruction they will be subject to the rules and regulations of the College and will receive Rs. 25 a month as salary. On being passed out of the Training College, they will receive the full salary of the grade to which they are appointed.

15. The qualifications which a candidate for direct appointment must possess are the following:—

(*a*) He must be of good social standing and respectable parentage, and must ordinarily be a native of the Division.

(*b*) He must be of good moral character.

(*c*) He must be over 21 and under 25 years of age on 1st September.

(*d*) He must have passed the Entrance or Matriculation Examination of an Indian University or the final B or C class examination of a Zilla or High School. He must have a fluent knowledge of English.

[NOTE.—Preference will be given to graduates and under-graduates. A limited number of applicants who have obtained the B. L. degree will be appointed to a higher grade, and if they subsequently give proof of special aptitude for conducting prosecutions, may look for special promotion to the rank of Court Inspector. Of the candidates selected, 5 per cent. will ordinarily be appointed in higher grades for special reasons, such as exceptional education, or social status or for standing first in the Final Examination.]

(*e*) He must be free from disease, constitutional affection or bodily infirmity unfitting him, or likely to unfit him, for police duties.

[NOTE.—Stuttering or stammering is a defect which renders an applicant ineligible.]

(*f*) He must be not less than 5 feet 3 inches in height and 30 inches round the chest.

B.—Promotion of Head-Constables to the rank of Sub-Inspector.

16. The number of Sub-Inspectors appointed by promotion of head-constables will not exceed 15 per cent. of the total number to be appointed.

17. In August the Inspector-General will intimate to each Deputy Inspector-General (including the Deputy Inspector-General of Railways) the number of appointments to be allotted to each Division and to the Railways. The Deputy Inspector-General will make three nominations for every two appointments allotted after consultation with the District or Railway Superintendents of Police, as the case may be. In selecting head-constables for promotion, preference should be given to those who have passed through the Training College and who have received special commendation for integrity of character and good detective work.

18. Deputy Inspectors-General will submit their nominations to the Inspector-General during November, and state which of the nominees should be sent to the College. If accommodation is available at the College they will be sent along with the candidates recruited by direct appointment.

NOTICE.

THE Inspector-General of Police, Lower Provinces, is prepared to receive applications for appointments as Sub-Inspectors of Police from young men of respectable parentage who have passed the Entrance or Matriculation Examination of an Indian University, or the final "B" or "C" class examination of a Zilla or High School. Candidates must have a fluent knowledge of English. Preference will be given to graduates and under-graduates and to natives of a Commissioner's Division in filling up the appointments allotted to it. A limited number of applicants who have obtained the B.L. degree will be appointed to a higher grade, and, if they subsequently give proof of special aptitude for conducting prosecutions, may look for special promotion to the post of Court Inspector.

No person will be deemed qualified who does not satisfy the following conditions:—

I.—That he has no disease, constitutional affection or bodily infirmity unfitting him, or likely to unfit him, for police duties, and that he is not less than 5 feet 3 inches in height and 30 inches round the chest.

(NOTE.—"Stuttering or stammering" is a constitutonal defect, and represents a physical disqualification.

II.—That he is of good moral character.
III.—That he belongs to a repectable family and is of good social standing.
IV.—That he will be over 21 and under 25 years of age on 1st January 190 .

During the period of instruction they will be subject to the rules and regulations of the Training College, and will receive Rs. 25 a month as salary. On being passed out of the Training College, they will receive the full salary of the grade to which they are appointed.

The position of selected candidates in the Range lists from which promotions are made will be determined by the places obtained at the final examination held at the conclusion of the Training College term.

HIGH COURT NOTICE.

General Letter No. 12.

To

THE DISTRICT JUDGE / THE DISTRICT MAGISTRATE OF

Dated Calcutta, the 20th August, 1909.

SIR,

HIGH COURT, ENGLISH DEPT. *Civil* / *Criminal*

THE experience of the past year having shown that the rules prescribed in General Letter No. 5 (Civil), dated the 19th May, 1908, and General Letter No. 4 (Criminal), dated the 27th August, 1908, in regard to the registration of Pleaders' and Mukhtears' clerks, respectively, have been, in some instances, misunderstood, and that they require certain modifications, the Chief Justice and Judges have decided to issue a fresh set of rules applying to the clerks both of Pleaders and Mukhtears, and these I am now directed to forward for your information and guidance and for communication to the Subordinate Civil / Criminal Courts in your district.

2. It would clearly not be possible to place any restriction on the employment of clerks by legal practitioners save in so far as their employment necessitates their recognition as privileged persons by the Courts, and the amended rules aim at nothing more. They make it clear that only the recognised employés of Pleaders and Mukhtears are to be allowed access to the Courts and offices, and they give power both to the District Magistrate and to the District Judge to remove any such clerk from the register for sufficient reasons to be recorded in writing. It is hoped that the presiding officers of the Civil and Criminal Courts will see that full effect is given to the revised rules, and that it may now be found possible through them to deal more effectively with the evils resulting from the hitherto almost uncontrolled activities of persons who dishonestly obtain access to the Courts and their offices on the ground that they are Pleaders' clerks.

3. Officers presiding over Courts should be careful to explain to their subordinates the contents of the Bengal Judicial Department Circular, No. 2970-J., dated the 15th April, 1901. Due attention, it is feared, has not been paid to that Circular, and every effort should now be made to arrange for the structural alterations necessary to give effect to the requirements therein laid down.

4. General Letters No. 5 (Civil), dated 19th May, 1908, and No. 4 (Criminal), dated 27th August, 1908, are hereby cancelled.

I have the honour to be,

SIR,

Your most obedient servant,

A. W. WATSON,

Officiating Registrar.

Rules for Pleaders' and Mukhtears' Clerks.

1. In these rules, the expression "recognised clerk" means a clerk employed by a Pleader or Mukhtear and permitted, as such, to have access to the Courts in which his employer is authorised to practise, and to the offices attached thereto.

2. Not more than one clerk at a time in the case of a Mukhtear, and not more than two clerks in the case of a Pleader, shall ordinarily be recognised.

3. The District Judge shall maintain a register of *all* recognised clerks employed in the district, and to each recognised clerk shall be given, under his orders, a card in the form set forth as Appendix I to these Rules. These cards (which shall be strictly non-transferable) shall be recalled for renewal at the close of each year.

4. The register prescribed by rule 3 shall contain the name, father's name, and residence of each recognised clerk, the date of his registration, the name of the Pleader or Mukhtear by whom he is employed, the Courts in the district in which his employer is authorised to practise, and a column for remarks. It shall be kept in two parts, the first for Pleaders' clerks, and the second for Mukhtears' clerks, and copies of it shall be supplied

by the District Judge at the commencement of each year to the District Magistrate and to each Subdivisional Office and outlying Munsifi. Copies shall also, if necessary, be furnished to the various Courts at the Sadar Station.

5. No clerk employed by a Pleader or Mukhtear shall, as such, be allowed access to any of the Courts of the district, or to any of the offices attached thereto, unless he is for the time being a recognised clerk.

6. The District Judge in any case, and the District Magistrate in the case of Mukhtears' clerks, may—for reasons to be recorded in writing, and after hearing the clerk in his defence, if he so desires—order the removal from the registers of any recognised clerk and the cancellation of his card, and on the passing of such order, the clerk shall cease to be a recognised clerk. Every such order passed by the District Judge shall be communicated to the District Magistrate, and *vice versâ;* and the necessary steps shall be taken for the alteration accordingly of the register and the copies thereof.

N.B.—Proceedings taken against clerks under this rule, are administrative and not judicial proceedings.

7. No person, whose name has been struck off the register, shall be recommended for registration by any Pleader or Mukhtear at the same or any other station.

8. On or before the date on which these rules come into force, every Pleader or Mukhtear practising in any of the Courts subordinate to the High Court, other than the Calcutta Small Cause Court, shall report to the District Judge the names or name of the two clerks or clerk whom he desires to have recognised; and the register shall, in the first instance, be prepared accordingly.

9. When submitting his report under rule 8, the Pleader or Mukhtear shall certify that the persons or person proposed are, or is to the best of his belief, fit to be so employed and will be employed *bonâ fide* in his own service and for the purpose of his legal business. No clerk registered as the clerk of one Pleader or Mukhtear, shall do business in the Courts, or offices thereof, on behalf of any other Pleader or Mukhtear.

10. If on the death, retirement, or dismissal of any recognised clerk, a Pleader or Mukhtear wishes to entertain another clerk in his place, he shall apply for his recognition as required by rule 8, and the certificate required by rule 9 shall be furnished in regard to all such persons as may be recommended hereafter for recognition under these rules.

11. Nothing in these rules shall be deemed to authorise indiscriminate entry into the offices attached to the Courts or any violation of the orders contained in the Government of Bengal's Circular, No. 1259-J., dated the 13th February, 1901, which was published in the *Calcutta Gazette*, dated the 17th April, 1901, Part IVA, page 3, and is reproduced as Appendix II of these rules.

12. These rules shall come into force on the 1st January, 1910.

Inside each "such office is to be kept a list shewing who were the officers entitled to occupy the room. Nos. 3052—3101.

Simla, the 16th August 1909.

RESOLUTION—By the Government of India, Home Department.

THE Rules issued under the Indian Arms Act, 1878, were originally published with the Home Department Notification No. 518, dated the 6th March 1879. As the result of successive amendments and additions during the past thirty years, these rules have become most intricate and confusing, and it is believed that in their present form they cause inconvenience to the officers who have to administer them as well as to the public, especially to those who are connected with the trade in arms and ammunition. The Governor-General in Council has therefore caused them to be codified in a clearer form. The revised rules have been circulated to Local Governments and Administrations for their opinions; and a large number of minor amendments suggested by them have been adopted. The rules as finally approved by the Governor-General in Council are now published for general information, in supersession of those hitherto in force. The changes which have been made in the rules are, for the most part, only such as are necessary in order to make them clear or in consequence of administrative changes, such as the formation of the North-West Frontier Province, the creation of new districts in the Punjab and the formation of the province of Eastern Bengal and Assam.

ORDER.—*Ordered* that the above Resolution and the rules be published in the *Gazette of India* for general information.

Ordered further that copies of the Resolution and the rules be forwarded to all Local Governments and Administrations, and to the Political Officers noted on the margin, for information; and also to all Departments of the Government of India, all Heads of Departments subordinate to the Home Department.

The Hon'ble RAI NALINAKSHA BASU BAHADUR.
The Hon'ble BABU KRISHNA SAHAY, B.L.
The Hon'ble MR. J. C. SHORROCK.

NEW MEMBERS.

The Hon'ble BABU KRISHNA SAHAY, B.L., and the Hon'ble MR. J. C. SHORROCK took their seats in Council.

THE CALCUTTA AND SUBURBAN POLICE (AMENDMENT) BILL, 1909.

THE Hon'ble MR. DUKE, by leave of the President, withdrew the following Motions, namely :—

(1) that the Report of the Select Committee on the Bill further to amend the Calcutta Police Act, 1866, and the Calcutta Suburban Police Act, 1866, be taken into consideration,

(2) that the clauses of the Bill be considered in the form recommended by the Select Committee, and

(3) that the Bill, as settled in Council, be passed.

The Hon'ble Mr. Duke, by leave of the President, also moved that the Bill further to amend the Calcutta Police Act, 1866, and the Calcutta Suburban Police Act, 1866, be recommitted to the Select Committee. He said :—

"The Motion which stands in my name is that the Bill to amend the Calcutta Police Act, 1866, and the Calcutta Suburban Police Act, 1866, be passed. I do not propose, however, that this Motion should be put at present.

"The Council is aware that a great deal of criticism has been directed against the Bill. I cannot say that Government has been greatly impressed by the force of this criticism, indeed it cannot admit that much of it has been fair or well-informed.

"It is not moved, for instance, by assertions that there is no need for control over matters which are controlled in every great modern city and which notoriously require contol in Calcutta also.

"But I may freely admit that criticism has been more general, and the feelings of opposition disclosed by it stronger than was expected. We certainly did not anticipate that provisions which had long been in operation elsewhere without serious objection having been taken to them, should be characterised as dangerous or repressive, nor did we expect that we should be implored to consult the High Court as to the propriety of police provisions which form part of the law in another Indian Presidency.

"But the very fact that this state of mind is so general lends additional weight to the contention that the time allowed for consideration has been too short.

"The six weeks which have elapsed since the Bill was introduced in Council might have been expected to suffice for the criticism of so short a measure, but it may be that uncertainty as to the rate of progress of the Bill has prevented the criticisms which have been received from being so full or so well matured as a longer interval of reflection would have allowed. In any case we have this condition that there is a great deal of criticism, rather hostile than illuminating, and there is also a widely expressed desire for more consideration.

"The measure is not urgent, it is intended to secure better and more effective and convenient administration, it was not devised to deal with any present emergency or crisis. A delay of three or four months in passing it will not occasion any serious public loss, and if mature consideration will make it a more effective measure in itself, and above all if it will secure for it that increase of moral authority which laws derive from the approbation of the thoughtful sections of the community, the delay will be a small price to pay.

"I believe in the principles of the Bill, and that the more they are examined the better they will establish themselves, and therefore I think that Government will not suffer by agreeing to the widely expressed desire for fuller consideration, while if the opinion of the High Court can be obtained, it must be valuable.

"In order then that time may be given for the further consultation of persons and associations interested in the Bill, and particularly that opportunity may be taken to invite the opinion of the High Court, I beg to withdraw the Motion which stands in my name, and instead to move that the Bill be recommitted to the Select Committee."

The Motion was put and agreed to.

The Council was then adjourned *sine die*.

RESOLUTION REVIEWING THE REPORTS ON THE WORKING OF THE PURI LODGING-HOUSE ACT DURING THE YEAR 1908-1909.

MUNICIPAL DEPARTMENT—SANITATION.

Calcutta, the 26th August 1909.

RESOLUTION—No. 1510San.

On the working of the Puri Lodging-house Act during the year 1908-09.

THE town of Danton, in the district of Midnapore, was withdrawn from the operation of the Lodging-house Act with effect from the 1st November 1908. In other reports the Act continued in force in the same towns and areas as in 1907-08. The law was amended during the year, with the view of preventing overcrowding in lodging-houses and improving their sanitary condition.

2. There was an increase both in the total number of licensed lodging-houses and in the number of lodgers for whom accommodation was provided, the figures rising from 1,746 and 66,818 to 2,492 and 107,569, respectively, as compared with the previous year. The increase in the district of Puri, however, from 717 houses to 1,118, was only apparent. The usual licenses were issued on the 1st April 1908 for one year; but as the Lodging-house Act was subsequently amended, the licenses already given were treated as

having expired at the end of the calendar year, and new licenses were issued from the 1st January 1909. In Gaya, the number of lodging-houses rose from 474 in 1907-08 to 871 in 1908-09, accommodation being provided for 51,388 pilgrims against 26,156 in the preceding year. There was a large falling off both in the number of lodging-houses and of lodgers at Naihati, which is accounted for by the fact that there was an extraordinary gathering there in the preceding year on the occasion of the *Ardhodoy Jog*. The two great festivals at Puri (viz., the Car and the *Dol*) were attended by 32,244 and 36,167 pilgrims, respectively.

3. Three hundred and forty cases under the Act were disposed of during the year in comparison with 408 in the previous year. The number of convictions was 317 against 383, and the total amount of fines imposed and realized was Rs. 6,594 against Rs. 5,934.

4. The total income of the funds (excluding the opening balance of Rs. 59,925) was Rs. 1,02,978 as compared with Rs. 83,009 in the preceding year. The increase was most noticeable in Puri and Gaya. In both places it was due to the issue of new licenses in accordance with the amended Act, and in the former also to the settlement of roadside lands by auction at higher rates.

5. The total expenditure incurred fell from Rs. 90,768 in 1907-08 to Rs. 86,162 in 1908-09. The decrease was largest in Gaya, Naihati and Nadia. In Gaya alone it was over Rs. 10,000, but in the previous year a large contribution was made to the water-works scheme. In Naihati, as already stated, fewer lodgers had to be provided for; the fluctuation in Nadia has not been explained.

6. No case of plague occurred among the pilgrims during the year, but cholera was prevalent in Gaya and Puri, though in a less virulent form than in the previous year, the number of deaths from this cause being 36 and 102 respectively, against 93 and 256 in 1907-08. The total mortality amongst the pilgrims was 404 as compared with 636 in the previous year. In Puri alone the total number of deaths was 372, to which cholera and dysentery contributed more than half. The sanitary arrangements of the lodging-houses were reported to be satisfactory on the whole, while the water-supply was good and sufficient.

7. The thanks of the Lieutenant-Governor are due to the District Officers and Health Officers concerned with the working of the Act during the year.

ORDER.—Ordered that a copy of the Resolution be submitted to the Government of India in the Home Department, and that copies be forwarded to the Commissioners of the Presidency, Patna, Bhagalpur and Orissa Divisions, for information.

Ordered also that a copy of the Resolution be communicated to the Sanitary Commissioner and to the Sanitary Board, Bengal, for information, and that it be published in the *Calcutta Gazette* for general information.

By order of the Lieutenant-Governor of Bengal,

H. WHEELER,
Secy. to the Govt. of Bengal.

The Report on the working of Co-operative Credit Societies in Bengal for the year 1908-09.

THE report deals with the working of Co-operative Credit Societies for a period of nine months only, because in place of a year ending on the 30th June it has been decided to adopt the ordinary financial year ending on the 31st March. Throughout the year Mr. Buchan held the post of Registrar and Babu Jamani Mohan Mitra that of Personal Assistant. The report was written by the former officer before his departure on leave in April last; and the latter officer has prepared and reviewed the returns.

2. Since the passing of Act X of 1904 progress in Bengal has been along very simple and uniform lines. No attempt has been made to experiment with different forms of rural societies, and attention has been concentrated on the Raiffeisen type only. The earliest societies were disconnected units, formed sporadically where opportunity offered. Subsequent additions were in many cases due to the exertions of individual organisers of the older societies, whose personality served as a connecting link between them. This year a further step has been taken, and such groups of societies have been combined in self-administered unions. The policy has been followed of developing compact areas in each district and extending from these as centres, with the object of avoiding the waste of power which would follow from the dissipation of attention over single scattered societies.

3. The societies in Bengal are of two types. In the first the liability is limited, and for the most part the societies are urban; in the second the liability is unlimited and they are rural; and it is this second class which demands the particular attention of the Registrar.

4. During the past year the number of societies in the Province has risen from 350 to 395 or by 13 per cent. The membership has increased from 12,094 to 14,640 equivalent to 21 per cent. while the capital has risen from Rs. 2,25,437 to Rs. 3,65,086 or by 62 per cent. All the town societies have made considerable strides during the year. There has been no large increase in their number; but the co-operative spirit in them has developed greatly. Confidence is now thoroughly established, and they are financed almost entirely by share capital and the deposits of their members. It is anticipated that this form of co-operation will spread without much further assistance from the Registrar amongst the mercantile firms in Calcutta and the government offices throughout the Province. A new form of society of an interesting type has been formed under the patronage of Sir Daniel Hamilton with the object of reclaiming waste lands in the Sundarbans. The joint capital will be employed in clearing the jungle and raising embankments, and the society will make advances to its members to enable them to cultivate the land and to settle tenants thereon. The progress of this society will be watched with much interest.

5. The development of co-operative credit in the mufassal has reached a critical stage. There are now 359 rural societies being an increase of 33 during the year, and the Registrar and his Personal Assistant are no longer able to do more than visit each society once or perhaps twice in a year. It is on efficient control that the success of the existing societies hinges, and their future prospects depend upon the ability of the Registrar to evolve a satisfactory system of control.

6. The real work of forming societies and educating the members must devolve on local voluntary helpers, and the Lieutenant-Governor agrees with

the Registrar in the opinion that unless and until it is adopted in earnest by the people themselves, the movement will be confined within the very definite limits of a kindly but ineffective official experiment. During the past year the press has given a small measure of increased attention to co-operation, and there are signs that some who have it in their power to assist are beginning to realise the possibilities for good which the movement possesses; but on the whole evidence of popular interest has been disappointing. The second condition of any substantial success is the creation of some higher form of organization. During the year the Registrar has given his attention to this problem on the lines laid down at the last Conference of Registrars, when it was decided to aim at federation into unions on a joint stock basis. In such unions societies are to be the only shareholders, and the unions will be restricted to dealings with their shareholders only. Two such unions were formed during the year, one at Raruli in Khulna and the other at Khelar in Midnapore. In the opinion of the Registrar the progress made so far is encouraging, and the experience gained tends to prove that the combination of societies into unions is not only theoretically sound, but is also quite practicable in existing circumstances in Bengal. The Midnapore union has already become financially independent of the help of the Registrar, and can now secure funds locally without any difficulty.

7. The sources from which the working capital of the societies is obtained are analysed in paragraph 8 of the review of the statistics. Only 4 per cent. of the capital has been advanced by Government and the Court of Wards, 21 per cent. has been advanced by large zamindars to societies among their raiyats (the larger part by the Maharaja Bahadur of Darbhanga); while 48 per cent. has been invested by the outside public. The amount of capital invested by the members and the local public is still very small, amounting to only 13 per cent. The Registrar should do all he can to encourage members to deposit, and his opinion is approved by Government that it would be well to widen the basis of membership so as to take in some of the more well-to-do villagers, provided that this can be done without pressure from outside. While the success of a society cannot be judged entirely from the amount of money deposited by its members, the fact that they have a stake in it greatly increases its stability and its attraction for local capital.

8. The analysis of the purposes to which loans taken from societies have been applied is of interest. Repayment of debts accounts for 37 per cent., cultivation and the purchase of cattle for 36 per cent., and marriage expenses for only 1·4 per cent. It would appear, therefore, that it is a sound principle to leave to the discretion of the panchayat the purpose for which loans can be given. The important distinction is not between productive and unproductive expenditure, but between expenditure which is necessary and that which is not; and the panchayat is the best judge of what is necessary.

9. The experiment was continued of trying to employ the large grain *golas* of the Santhal Parganas as central agencies for village grain societies, and appears to have met with a moderate amount of success. The Registrar is probably correct in holding that village grain banks will be successful only if kept on a small scale, and that as their utility is limited, they will tend as soon as they are successful to develope into cash societies.

10. The Lieutenant-Governor desires to acknowledge the energy and tact displayed by Mr. W. H. Buchan, the Registrar, and his Personal Assistant, Babu Jamini Mohan Mitra, in the performance of their duties, and to acknowledge the work of the officials referred to by Mr. Buchan in his report. To the honorary organisers in particular his special thanks are due, both for what they have accomplished, and still more for the example they have set to others in a work of which the ultimate success is dependent on the self-sacrifice and enthusiasm of private individuals.

RESOLUTION ON THE ANNUAL REPORT OF THE BENGAL VETERINARY COLLEGE AND OF THE CIVIL VETERINARY DEPARTMENT, BENGAL, FOR THE YEAR 1908-09.

REVENUE DEPARTMENT—AGRICULTURE.

Calcutta, the 31st August 1909.

RESOLUTION—No. 3268Agri.

READ—

The Annual Report of the Bengal Veterinary College and of the Civil Veterinary Department, Bengal, for the year 1908-09.

On the 1st of April 1908 the charge of the Civil Veterinary Department was separated from that of the Bengal Veterinary College. Throughout the year Colonel F. Raymond, F.R.C.V.S., has been in charge of the College and the administration of the Glanders and Farcy Act in Calcutta and the suburbs, while Mr. D. Quinlan, I.C.V.D., has held charge of the Civil Veterinary Department.

2. *The Bengal Veterinary College.*—The college has been very ably managed by Colonel Raymond throughout the year. The bulk of the students naturally belong to Bengal, but 53 are from Eastern Bengal and Assam, and 10 from other Provinces. The high percentage (86·2) of the third-year students who passed the diploma examination testifies to the efficiency of the instruction. The health of the students has been good throughout the year; but a hospital is being organized in connection with the hostels to provide against any outbreak in the future. The Principal reports that the conduct of the students has been excellent. On the occasion of the prize-giving last year the Lieutenant-Governor expressed his satisfaction with this feature of the college, and sanctioned a special grant for the preparation of an athletic ground, in order that the students might have increased facilities for athletic exercise.

The expansion of the college has been again postponed for want of funds, but it has been found possible to provide a sufficient amount for the Assistant Professor's quarters, so that this officer may always be in residence.

3. The provisions of the Glanders and Farcy Act have been more strictly enforced during the year, and the efficient administration of the Act has not been attended by any increase of friction. Horses, mules and donkeys in Calcutta increase in number every year and now amount to over 13,000 animals. During the year the staff was able to inspect 4,007 stables, in 90 of which glanders was detected, and the necessity for the work is shown by the fact that out of 296 animals seized one-half had to be destroyed because they were suffering from contagious disease. Colonel Raymond has introduced the plan of paying small sums in compensation to those whose livelihood depends on the animals destroyed, and it has been found that this has greatly facilitated the administration of the Act at a very slight expense.

4. With the college report is incorporated the first annual report of the Raymond Research Laboratory. This institution, which was commenced in 1906, now comprises a central building with a working room for the pathologist, a bacteriological laboratory, a chemical laboratory, a micro-photographic and drawing-room and a dark room. There is also a cellar for the storage of biological products; and attached to the establishment are *post-mortem* and inoculation rooms. Valuable work has been done in diagnosing diseases in connection with the Glanders and Farcy Act, in rabies, and in more obscure cases admitted into the hospital for treatment or *post-mortem* examination. To the Civil Veterinary Department assistance was rendered in the diagnosis of diseases in the mufassal. By means of the laboratory much valuable instruction has been given to the senior students about the infectious diseases of India. Colonel Raymond has organized a post-graduate course for officers of the Department.

5. The number of cases treated at the hospital shows a steady increase from 4,132 to 5,144. This is satisfactory, as indicating the increasing confidence of the public in the institution, and as affording enlarged facilities for the practical training of the students.

6. *Civil Veterinary Department.—Diseases.*—As stated in last year's resolution the information about deaths from contagious diseases is not very reliable, and the figures require scrutiny. Cases of *surra* and *dourine* are reported from the Sonthal Parganas concerning which the Superintendent has no information. According to the table two districts, namely, the Sonthal Parganas and Puri, account for half the total mortality in the Province: but no special outbreaks of a serious nature in these two districts are referred to by the Superintendent. It is necessary that more attention should be given in future to the preparation of this statement; and where figures call for special comment careful inquiries should be made by the Superintendent before the submission of his report. From the statistics it is impossible to come to any conclusion about the prevalence of cattle-diseases during the past year. It is noted with satisfaction that the number of animals inoculated has increased by 100 per cent. It is understood that the remarkable falling off in inoculation work to which attention was drawn in last year's resolution was due to the inclusion of figures for Eastern Bengal in 1906-07 and their exclusion in 1907-08. The Lieutenant-Governor agrees with the Superintendent in thinking that the members of the Agricultural Association might render very useful help to the Veterinary Department by promptly reporting serious outbreaks which come to their notice, and he is glad to see that a commencement has been made in this direction.

7. *Veterinary Dispensaries.*—There are now 27 veterinary dispensaries in Bengal, 2 new ones having been opened during the year, one at Chapra and the other at Bhagalpur. There has been a considerable decrease in the total number of patients admitted to the provincial dispensaries during the year, and in many cases the residents appear to take only a lukewarm interest in them.

8. *Breeding Operations.*—The Lieutenant-Governor is pleased to notice that some progress has been made in the distribution of bulls to public bodies and private individuals. An outbreak of rinderpest has unfortunately greatly weakened the Siri herd at Kalimpong.

9. *General.*—During the year the inspecting staff was considerably strengthened. There are now four Inspectors appointed under the reorganization scheme and 52 Veterinary Assistants in the Province. The reorganization scheme has not yet been introduced so far as the Assistants are concerned. The replies of the local bodies consulted in the matter are at present under consideration.

10. The Lieutenant-Governor desires to acknowledge the efficiency of Colonel Raymond's administration. His service has been extended for a period of three years, and he has received special promotion in recognition of his work. The Lieutenant-Governor also acknowledges the energy with which Mr. Quinlan, the Superintendent of the Civil Veterinary Department, has carried out his duties. He endorses the opinion expressed by these officers concerning their assistants.

By order of the Lieutenant-Governor of Bengal,

C. G. H. ALLEN,

Offg. Chief Secy. to the Govt. of Bengal.

* The report is for the week ending the 21st August 1909.

GENERAL SUMMARY.—The rainfall during the week was general all over the Province. The fall was very heavy in South-West Bengal and also in parts of Purnea, Darjeeling, Hazaribagh and Gaya; moderate in North Bihar, the Santhal Parganas, Cuttack, Puri, Sambalpur and Singhbhum and light in the rest of the Province. Some damage has been done by excessive rain in Jessore, Khulna, Shahabad, Champaran, Monghyr and Darjeeling. On the other hand, more rain is reported to be wanting in parts of Shahabad, Angul and Sambalpur, and in the last named district autumn paddy has suffered to some extent for want of sufficient moisture. Transplantation of winter paddy still continues. Harvesting of jute, autumn paddy and *marua* is going on. Sugarcane is doing well. Prospects are fair. The price of common rice has risen in Purnea, Angul and Hazaribagh, and has fallen in Jessore, Saran, the Santhal Parganas, Ranchi and Manbhum. Cattle-disease is reported from Burdwan, Nadia, Jessore, Patna, Gaya, Champaran, Darbhanga, Bhagalpur, Purnea, Angul, Sambalpur, Hazaribagh and Palamau. The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

o, overcast; g, dark gloomy; d, drizzling rain; p, passing temporary showers; t, thunder.

shall be punishable with fine which may amount in the case of a first conviction to fifty rupees or in the case of a second or subsequent conviction to one hundred rupees.

STATEMENT OF OBJECTS AND REASONS.

THE object of the Bill is to prevent the spread of dourine, a contagious disease of horses which is spread by coition. The existence in India of this obscure disease was first brought to the notice of Government in 1903. As it was reported to constitute a serious menace to the horse-breeding industry in this country, precautionary measures were at once taken executively to check the spread of the disease, especially in the horse-breeding districts of Northern India. In the following year attention was again drawn to the importance of the subject, and as the result of a report by the present Inspector General of the Civil Veterinary Department, further executive action was taken. After consulting Local Governments it was eventually decided that, in order effectually to combat the disease, legislation was necessary.

2. The Bill, which is self-explanatory, has been drawn up on the model of the Glanders and Farcy Act, XIII of 1899. It is permissive in character and has been drafted so as to allow the widest discretion to Local Governments as regards the registration of stallions maintained for breeding purposes.

3. Dourine cannot be diagnosed except by bacteriological examination, and sub-clause 8 (*b*) accordingly makes proof of the disease by microscopical examination a necessary preliminary to further action under that clause. It is considered advisable to enlist the co-operation of horse-owners as much as possible in dealing with this obscure and dangerous disease, and liberal provision has been made in clause 9 for the payment of compensation when necessary.

THE SCHEDULE.

ENACTMENTS REPEALED.

(*See section 30.*)

Year.	No.	Short title.	Extent of repeal.
1905	III	The Indian Paper Currency Act, 1905.	So much as has not been repealed.
1909	II	The Indian Paper Currency (Amendment) Act, 1909.	The whole.

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is the amendment of the Indian Paper Currency Act, 1905, in two directions as described below :—

Firstly,

(*a*) by declaring currency notes of the denominational values of rupees ten and fifty to be "universal" (as currency notes of the value of five rupees already are), that is to say, to be legal tender in any part of British India and payable at any currency office ; and

(*b*) by taking general power to make a similar declaration regarding currency notes of other denominations, as may from time to time be found expedient.

Secondly,

(*a*) by abolishing the existing sub-circle arrangements, under which currency notes other than universal notes are at present payable not only at the office of issue, but also at the Presidency-town in which the office is situate ; and

(*b*) by establishing independent circles of issue at Cawnpore, Lahore and Karachi and abolishing the Calicut sub-circle office.

As the attainment of this object involves considerable amendment of the existing Act, it has been thought advisable to take the opportunity of consolidating the law on the subject. The present Bill is, therefore, introduced as a consolidating Bill repealing and

The annexed notes on the various clauses of the Bill explain the amendments proposed, other than petty verbal changes such as the reference to the present Indian Coinage Act instead of to that of 1870 in clauses 11 and 13.

GUY FLEETWOOD WILSON.

The 26th August 1909.

Notes on Clauses.

Clause 2 contains a definition of the term "universal currency note."

Sub-clause (*a*) provides for the immediate universalisation of the ten and fifty rupee notes, and sub-clause (*b*) is designed to obviate further amendment of the law if experience should show that other notes can beneficially be universalised.

Clause 4.—The latter part of section 3 of the existing Act is rendered unnecessary by the changes proposed in clauses 5 and 6, and has accordingly been omitted.

Clause 5.—Section 4, clause (*a*), of the existing Act has been altered to provide for the new circles of issue; and the retention of clause (*e*) is rendered unnecessary by the abolition of sub-circles.

Clause 6.—In view of the abolition of sub-circles, it is considered unnecessary to retain the distinction between Deputy Commissioners and Commissioners of Paper Currency. Henceforward all will be Commissioners.

Clauses 7, 9 and 10.—The changes made in sections 6, 8 and 9 of the Act are rendered necessary by the proposed abolition of the post of Deputy Commissioners of Paper Currency.

Clauses 15 and 16.—The sections concerned with "legal tender" and the encashment of notes have been modified to provide for the universal notes.

Provisos (i) and (ii) in clause 16 continue the privilege of double encashment (at the local office and at the head office of the circle) to sub-circle notes of what will hereafter be separate circles issued prior to the passing of the Bill.

Clause 18.—This is a new clause, designed to provide, particularly, for the future treatment of notes issued from Calicut and now current, and, generally, for any future case in which it may be found necessary to close an office of issue.

Clause 29 (d).—Power has been taken to make rules, such as are already in force under executive instructions, for dealing with the encashment of lost or mutilated notes.

Secretary to the Government of India.

RESOLUTION ON THE ADMINISTRATION REPORT OF THE POLICE DEPARTMENT FOR THE YEAR 1908.

POLITICAL DEPARTMENT—POLICE.

Calcutta, the 1st September 1909.

RESOLUTION—No. 3017P.

READ—

The Report on the Administration of the Police Department for the year 1908.

Read also—

The Report for the year 1907 and the Resolution of Government thereon.

Mr. A. V. Knyvett, C.I.E., whose long and meritorious service in the Bengal Police has been previously acknowledged by Government, held the office of Inspector-General for the first quarter of the year under report, and was succeeded by Mr. L. F. Morshead, I.C.S., who held charge for the remainder of the year. The report, which is full and interesting, has been compiled by Mr. R. T. Dundas during Mr. Morshead's absence on leave.

Political crime.

2. The year under review was marked by an outbreak of political crime of a very serious character. It began in December 1907 with the attempt to wreck the Lieutenant-Governor's special train, and culminated in February 1909 in the murder of Babu Ashutosh Biswas, the Public Prosecutor at Alipore. Apart from murderous attacks on individuals, the incidents of greatest significance were the discovery of alleged conspiracies directed against the Government, the head-quarters being at Maniktolla and in Midnapore. As regards the first of these, proceedings are still pending in appeal before the High Court, while in respect of the latter a special enquiry is being conducted by the Commissioner of the Division. Comment must therefore be reserved for the present. The greatest difficulty with which the police have had to contend has been the reluctance of the public to co-operate with them in the detection and prosecution of crime. In part this may be due to terrorism, but it is also attributable to the deficient standard of public spirit which unhappily prevails in this country, and which leads numbers of people, including too often those whose education and intelligence might have guided them aright, to shirk a public duty because it is irksome or attended with personal risk. So long as this spirit prevails, it is hopeless to expect that police work will attain to the same level of efficiency as it has reached in other countries. In view of the special difficulties which this and other causes have thrown in their way, the Lieutenant-Governor considers that the police of Bengal have achieved no small measure of success in grappling with political crime; while the staunchness and courage that have been exhibited by many of the officers and men are deserving of all praise.

Professional crime.

3. A considerable measure of success was achieved by the Criminal Investigation Department, which is specially charged with the duty of dealing with professional crime. A number of dangerous gangs of professional convicts and thieves were broken up; and it is not too much to say that the organization of this Department under Messrs. Knyvett and Plowden has for the first time placed the police in a position to cope successfully with this form of crime. The figures speak for themselves, for out of a total of 405 persons prosecuted, no fewer than 382, or nearly 94 per cent., were convicted.

His Honour desires that special efforts should be devoted to the compilation of an index of political and professional criminals, which should contain full particulars regarding the identity of each criminal, the crimes he is known or reasonably suspected to have committed, and his life history. Such a catalogue, if continuously maintained in communication with the Superintendent of the district in which the criminal resides or in which his crimes are committed, should prove of the greatest value to all officers employed in the detection of crime. The publication of the *Criminal Intelligence Gazette* is a useful step in the same direction, while the finger-print bureau continues to afford increasing assistance in the identification of professional criminals. His Honour has read with satisfaction the commendation of Mr. Corbett's work in this Department.

Ordinary crime.

4. The introduction into the report of a summary of the state of crime in each district is a useful innovation, and an analysis of the facts reported indicates that administration has been successful in 16 districts, while it has been inefficient in 11 others; the remaining six districts call for no remark. The Lieutenant-Governor notices with pleasure the praise which the Inspector-General is able to award to Messrs. Cox, Swaine, Kelso, Simpson and G. C. Mukharji for their successful administration. The results seem to have been least satisfactory in the districts of Sambalpur, Shahabad, Purnea and Jessore, and it is to be hoped that there will be an improvement in these districts in the present year. His Honour is pleased to observe the efforts which were made in Bhagalpur, Ranchi, Saran and in some other districts for the prevention as opposed to the detection of crime. No fact emerges more clearly from a study of the crime history of individual districts than this, that success in controlling professional crime depends entirely upon the vigour and persistency with which a policy of prevention is followed. The circulation of extracts from an index of

criminals should go far to acquaint the local police with the *personnel* and life history of the more dangerous criminals, and no efforts should be spared to keep such offenders under control by close observation of their movements and the institution of prosecutions under section 106, Criminal Procedure Code, should they again engage in crime.

The results of the investigation of crime, especially in the case of burglaries, indicate the need for improvement in detective work, and this is a matter to which closer attention should be directed in future reports.

The Inspector-General should examine the system of road patrol which has been introduced in Saran, and consider whether it might not be given a trial in areas where dacoities and burglaries are numerous. The percentage of refusal to enquire into cognizable cases in the Orissa Division is still too high, with the result that the control over professional crime is inevitably weakened.

Cognizable crime.

5. Cognizable crime shows an increase of 8 per cent. over last year's returns. The whole of this occurred under the heads of burglary and theft, and is to be attributed principally to the high price of food.

The number of cases declared to be maliciously false remains very great. In the 24-Parganas, out of 180 false cases only one conviction under section 211, Indian Penal Code, was secured; and in Hooghly and Hazaribagh, where the false cases numbered 84 and 92, respectively, there were only two convictions in each. It is necessary once more to draw special attention to the failure to deal with this class of crime. District Magistrates should personally scrutinize these cases with a view to satisfy themselves that complaints which are merely exaggerated are not recorded as maliciously false, and that in cases which properly fall under the latter category prosecutions are instituted whenever they afford a reasonable prospect of success. Remands are still excessively numerous, and this is a subject to which the special attention of District Magistrates has frequently been invited. They should satisfy themselves in the course of their inspections that postponements are not allowed except for good and sufficient reasons; and in the annual character reports of their subordinates they should bring to notice any persistent tendency to grant unnecessary remands. The number of absconders continues to be large. The attention of Magistrates is directed to the provisions of sections 59 and 78 of the Criminal Procedure Code, in accordance with which the services of zamindars, dafadars and chaukidars can be utilised for the arrest of proclaimed offenders.

Police Reforms.

6. The reforms in the Bengal Police, which were sanctioned by the Secretary of State in 1906, were estimated to involve an annual addition to the cost of the force of Rs. 24 lakhs, of which 4½ lakhs were to be spent in improving the pay and prospects of the superior ranks, and 19½ lakhs on the rank and file. Of the former figure, recurring expenditure to the amount of nearly three lakhs had been incurred up to the 31st March 1908, while 12½ lakhs had been spent on the inferior ranks. Of the balance of 8½ lakhs, for which provision had still to be made, the reforms introduced during 1908-09 involved an expenditure of Rs. 73,000, so that about two-thirds of the scheme has been completed. The remainder of the programme will be carried into effect as rapidly as financial exigencies permit.

Recruitment of Investigating Officers.

7. The Inspector-General recommends that for the next few years the proportion of promotions of Head-constables to direct recruitments to the post of Sub-Inspectors should be doubled. This is a proposal which should be separately brought forward, and which requires close examination, as it must be remembered that the men who are now being recruited as Sub-Inspectors are of a superior class to those of whom this grade has hitherto been composed. The present officers may be young and inexperienced, but it is probable that they make up for their deficiencies by their energy and intelligence. The majority have already received adequate training; and they should be free from the traditions which, it is to be feared, experienced Head-constables, who are promoted to this class, may retain. The Inspector-General

remarks, in the concluding paragraphs of his report, that it is generally recognized that the whole tone of the Inspectors and Sub-Inspectors has improved, and this improvement must be due, to a large extent, to the modern system of recruitment.

Town Patrol.

8. His Honour notices with pleasure the improved patrol system which Mr. Swain has devised for the Bengal Town Police. The Inspector-General reports that its introduction has been attended with success everywhere, and it is to be hoped that it will result in the diminution of crime in municipal areas.

Panchayats.

9. The Lieutenant-Governor notes the remarks of the Inspector-General in paragraph 102 of his report on the new panchayats, and they will receive careful attention when the subject comes under the consideration of Government.

The failure to reward chaukidars adequately for services rendered is a matter to which Sir Edward Baker directs the special attention of District Magistrates and of the police. It is very regrettable that these funds, which are under the direct control of Magistrates, should not be utilized to encourage good work, for experience shows that rewards are no less effective than punishments as an incentive to special effort. Nevertheless, in spite of the attention which has repeatedly been drawn to this matter, the balances of the funds have steadily increased. This progressive increase indicates a waste of power, and the Lieutenant-Governor desires that in future Magistrates and Superintendents shall make full use of the funds at their disposal. Trying Magistrates should recommend rewards in all cases where chaukidars have rendered efficient service either in the arrest of criminals or by giving prompt information at the thana of anticipated breaches of the peace; and District Magistrates and Superintendents of Police should see that rewards are presented in as public a manner as possible.

The health of the force largely depends upon the manner in which the officers and men are housed, and improvement is urgently needed in this respect and should be carried out as soon as practicable.

General condition of the Police force.

10. The Lieutenant-Governor is glad to learn of the improvement that has been effected in the smartness and efficiency of the police. The appointment of European Armed Inspectors and the improved instruction in drill at the Police Training College are largely responsible for this result, while the attention paid to athletics will render the general tone of the force more wholesome and manly, and promote sympathy between officers and men. In paragraph 124 of his report the Inspector-General claims that the reforms suggested by the Police Commission are already beginning to bear fruit. With this view His Honour concurs, and in the face of the facts which the Inspector-General can produce, neither the mistakes and misconduct of individual members of the Department nor the criticism so freely levelled against it can obscure the general progress which has been made. The Lieutenant-Governor considers it beyond the possibility of doubt that there is a steady and continuous improvement in the honesty and efficiency of the whole force, and he desires to thank Mr. Morshead for his careful administration of the Department. He is pleased to notice also the names of those whom the Officiating Inspector-General, Mr. Dundas, has mentioned, and in particular to record his thanks to him as well as to Messrs. Plowden and Denham for the good work which they accomplished during the year.

ORDER—Ordered that copies of the Resolution be forwarded to the Inspector-General of Police, the Commissioner of Police, Calcutta, and all Commissioners of Divisions for information.

Ordered also that the Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

C. G. H. ALLEN,

Offg. Chief Secy. to the Govt. of Bengal.

THE following report is published for general information.

C. G H. ALLEN,

The 31st August 1909. *Offg. Chief Secy. to the Govt. of Bengal.*

ADMINISTRATION REPORT OF THE METEOROLOGIST, CALCUTTA, FOR THE YEAR 1908-09.

Mr. C. W. Peake was in charge of the Alipore Meteorological Office from April the 1st 1908 to March the 23rd 1909 when he proceeded home on combined leave for nine months. I took over charge of the post of the Meteorologist, Calcutta, on March the 24th. Virtually, therefore, the Alipore Office was in charge of Mr. Peake during the whole of the past year.

2. The total number of observatories under the control of the Meteorologist, Calcutta, on the 31st of March 1909 was 72, including 1 second class, 50 third class, 19 fourth class and 2 voluntary observatories. The increase in the number of the third class observatories is due to the establishment of an observatory at Cox's Bazar and another on board the Pilot Vessel "*Lady Fraser*" at the Sandheads. The Observatory at Cox's Bazar, which is in charge of the Assistant Surgeon of the place, is situated close to the sea and its observations have been found to be of much value. The observatory was started on the 15th of April 1908. Advantage was taken of the addition of a second pilot vessel, the "*Lady Fraser*" (for duty at the Sandheads) for the establishment of an observatory on board the vessel. This pilot vessel also has arrangement for sending telegrams by wireless telegraphy and thus the continuity of meteorological observations at the Sandheads, which was not possible before owing to the "*Fraser*" being called away to Calcutta for coaling and other purposes, has been secured.

3. The following table gives the names and distribution of these 72 observatories :—

6. *Inspection of Observatories.*—The following observatories were inspected during the year under review :—

Name of station.	Dates of inspection
Arrah	20th to 22nd February.
Balasore	1st to 3rd July.
Barisal	28th March.
Bhagalpur	16th to 18th February.
Buxar	18th to 21st June.
Chapra	23rd to 29th June and again 18th to 20th January.
Darbhanga	24th to 26th February.
Darjeeling	23rd February.
Gaya	22nd to 24th January.
Jalpaiguri	25th February.
Motihari	4th and 5th March.
Muzaffarpur	28th February to 2nd March.
Narayanganj	19th and 20th March.
Purnea	27th February.

7. The inspection reports show that the observatories at the time of inspection, were, speaking generally, in good condition.

8. *Jalpaiguri.*—The work done at Jalpaiguri has for a long time past been unsatisfactory and all efforts made to improve it were unsuccessful. At the time of Dr. Simpson's inspection on the 25th of February 1909 the observatory was found to be in good condition and the observer seemed to know his work. He ascribed the faulty observations to mere carelessness.

9. *Gaya.*—The chief object of the visit to the Gaya Observatory was to remove the barometer from the Honorary Magistrate's Court where it had been for many years past. The barometer was removed to the Gaya Pilgrim Hospital on the afternoon of January the 23rd 1909.

10. *Purnea.*—Dr. Simpson, Imperial Meteorologist, visited the observatory on the 27th of February 1909. His report of inspection is quoted below to show what difficulties the Meteorological Department have had in the matter of keeping the barometer near the thermometer shed at Purnea.

"The observatory was originally at the Jail. Owing to extension of the Jail the room containing the barometer and on which the wind instruments are fixed is to be removed. As there is no suitable site for the instruments at the Jail it was decided in March last (1908) to remove the barometer and wind instruments to the Hospital, a mile away from the Jail. Mr. Gaetane removed the barometer on 28th March 1908 and the Public Works Department were asked to remove the wind instruments but they have not yet done so.

The removal of the barometer alone has been unfortunate in that the observer has had to walk a mile between taking his thermometer readings and his barometer readings and then has had to walk back a mile to the telegraph office.

After talking the matter over with the Civil Surgeon and the observer, I have come to the conclusion that instead of moving all the instruments to the hospital it will be better to build a small tower to contain the wind instruments and barometer near to the Jail. In this way there will be the least amount of change and the normals will not be affected.

* * * *

I have to-day returned the barometer to the Jail (but to a new position) so that from to-morrow the observations may be taken at the proper time as was the case before the 28th of March 1908."

11. *Motihari.*—Owing to the removal of the Motihari hospital and the Civil Surgeon's office to a new building about 3 miles from the site of the observatory it was necessary to transfer the meteorological instruments to a building near the hospital as the Civil Surgeon's clerk found it difficult to take observations at a place so far away from his office. A thermometer shed was erected near the new hospital and the thermometers were removed on the 19th January 1909. The wind instruments were removed from the cutchery building and fixed to the roof of the new hospital. The barometer was removed from the Magistrate's private room to the Civil Surgeon's office on 19th October 1908.

12. Under the existing arrangement of supplying raingauges and measure glasses to the rain registering officers in Bengal, 7 raingauges, 6 measure glasses and 5 glass bottles (for use with raingauge) were issued during the past year from the stock kept in this office.

13. *Daily Weather Report.*—The Calcutta Daily Weather Report was issued throughout the year, Sundays and holidays included. The number of stations included in the report was 87 on the 31st of March 1909 as against 85 on the same date in the previous year. The increase is due to the addition of Cox's Bazar and Kyaukpyu to the list of stations which send weather telegrams for the Calcutta Weather Report.

14. The Monthly Meteorological Table for Bengal and Eastern Bengal and Assam was regularly published in the *Calcutta Gazette*.

15. The supplementary weekly Meteorological and Rainfall Table containing temperature and rainfall observations recorded at 19 stations in Bengal and Eastern Bengal and Assam was issued on every Wednesday throughout the year. For purposes of comparison, temperature and rainfall observations recorded during the corresponding week of the previous year were added to the report.

16. The daily flag signal message, was sent to Saugor Island throughout the year and to Elephant Point from April the 1st 1908 to January the 14th 1909 only. This message was also sent to the Port Officer, Rangoon, during the period January the 15th to March the 31st.

17. The following officers were supplied with the flag signals and the daily weather telegram from 1st April 1908 to 14th January 1909 :—

23. There was no addition to, or alteration in, the code of storm signals.

24. In connection with the proposed extension of the storm-warning system to stations in the Bakarganj and Noakhali districts as also to stations in the Sunderbans, referred to in paragraph 31 of Mr. Peake's Administration Report for 1907-08, the Collector of Bakarganj was regularly informed of bad weather likely to affect his district.

25. The Government of Eastern Bengal and Assam selected the Joint Agent of the Rivers Steam Navigation Company as the person responsible for the hoisting and lowering of storm signals in the port of Barisal. Orders to hoist and lower storm signals were, therefore, sent to that officer during the past year, but it was subsequently reported that the flagstaff for the exhibition of the signals was not ready and hence no action was taken on the telegrams beyond sending warnings to the vessels in the port.

26. Arrangements are also being made for the exhibition of storm signals at Noakhali and Morelganj.

27. The duty of hoisting and lowering of storm signals at Narayanganj had hitherto been entrusted to the Station Master of that place. The Government of Eastern Bengal and Assam have, however, transferred this duty to the Steamer Agent, Narayanganj.

28. The dates of the principal storms and barometric depressions occurring during the past year are given in the following table :—

Table giving a brief statement of the storms which affected the Bay of Bengal Coasts during the year 1908-09.

Number of storm.	Period of depression or storm.	Character of depression or storm.	Coast affected.
1	9th and 10th May .	A shallow depression appeared over the Andaman Sea on the 9th. It gave a moderately heavy burst of rain in Tenasserim and the Andaman Islands and on the 10th crossed the coast near Moulmein.	Burma Coast.
2	16th and 17th June .	On the 16th there was distinct indication that the depression which existed in the Bay for some days past had intensified and was in the neighbourhood of the Sandheads. It rapidly developed into a storm of moderate intensity, crossed the coast near Saugor Island on the 17th and drifted slowly in a northerly direction during the next four days. It gave remarkably heavy rainfall in its passage over Calcutta.	Bengal Coast.
3	23rd and 24th June .	A depression appeared to the north of Saugor Island on the 23rd. It moved in a westerly direction and was near Balasore on the 24th. It then drifted in a north-westerly direction and filled up in the Central Provinces on the 26th.	Orissa Coast.
4	30th June and 1st July	On the 30th June a shallow depression formed off the Circars Coast. It passed inland near Calingapatam on 1st July.	Circars Coast.
5	7th and 8th July .	Weather became disturbed on the 7th and a depression formed on that date with a centre near Faridpur. It caused stormy weather in the north-east angle of the Bay. It moved in a westerly direction on the 8th. The depression was a most important one because of the fact that it gave heavy rainfall on the 7th, 8th and 9th.	Chittagong Coast.
6	24th to 26th July .	A shallow depression appeared off the Circars Coast on the 24th. It moved in a north-westerly direction and was near Puri on the 25th. It, however, filled up without giving rise to disturbed weather.	Orissa Coast.
7	31st July and 1st August.	A fairly well marked depression moved from the Bay into Orissa on the 1st and occasioned general and moderately heavy rainfall in its neighbourhood.	Orissa Coast.

Number of storm.	Period of depression or storm.	Character of depression or storm.	Coast affected.
8	10th to 13th August .	A shallow depression appeared off the Ganjam Coast on the 10th. It continued to develop for the next two days without moving appreciably. On the 12th it moved in a northerly direction and its centre at 8 A.M. was near the Sandheads. On the 13th it curved to west and crossed coast near Balasore.	Orissa Coast.
9	25th to 27th August .	A depression formed in the Andaman Sea on the 25th and conditions remained disturbed till the 27th after which weather improved in that region.	Tenasserim Coast.
10	27th to 29th August .	Conditions indicated the formation of a depression in the north of the Bay on the 27th. On the 28th it appeared to be approaching the Orissa Coast. It passed inland between False Point and Puri at 6 on the morning of 29th.	Orissa Coast.
11	7th and 8th September	A depression appeared off the South Coromandel Coast on the 7th but it did not develop and disappeared by the morning of the 8th.	Coromandel Coast.
12	12th to 15th September.	On the 12th conditions indicated that a low pressure area had formed over the Bay and on the next day a shallow depression was shown off the Circars Coast. It developed slightly and then disappeared by the 15th without crossing the coast.	Coromandel Coast.
13	19th to 25th September.	A depression entered the Andaman Sea from the east on the 19th; it developed into a cyclonic storm and moved almost due west to the coast of the Circars which it crossed near Cocanada on the afternoon of the 25th.	Circars Coast.
14	6th to 9th October .	A depression began to form in the north of the Bay on the 6th. It was most marked on the 7th and developed into a storm on the 8th crossing the coast near Cox's Bazar on the 9th.	Chittagong Coast.
15	15th to 23rd October	A shallow depression which existed in the Andaman Sea for some days past appeared to be approaching the Andaman Islands on the 16th. It subsequently developed into a cyclonic storm and travelled across the south of the Bay passing inland near Pamban on the 23rd.	Coromandel Coast.

Number of storm.	Period of depression or storm.	Character of depression or storm.	Coast affected.
16	23rd to 25th October	On the same date when the storm noticed above passed inland, *viz.*, 23rd October, another depression formed between Port Blair and the Coromandel Coast. It moved in a northerly direction crossing the coast between Masulipatam and Nellore on the 25th.	Coromandel Coast.
17	31st October to 6th November.	A shallow depression was shown in the south-west of the Bay on the 31st October, which developed into a storm during the next 48 hours. On the 3rd November the storm appeared to be moving in a northerly direction and after curving to the north-east and diminishing rapidly in intensity was shown to be approaching the Arakan coast on the 5th. Further development of the storm was, however, checked by the formation of another depression further south.	Coromandel and Arakan Coasts.
18	9th to 11th November.	On the 9th a disturbance was shown to the south-west of Diamond Island This proved to be a small, but rather intense, cyclonic storm which moved initially in a north-westerly direction and then curved rapidly to the east passing over Akyab on the night of the 11th, doing considerable damage to the town and the harbour of Akyab.	Arakan Coast.
19	20th to 22nd December.	Very disturbed weather prevailed in the south-west of the Bay on the 20th and 21st and a cyclonic storm appeared to have crossed the coast to the south-west of Ceylon.	Ceylon Coast.
20	28th December to 1st January.	Weather was slightly disturbed in the south of the Bay from the 24th and by the 28th the disturbance had developed considerably. It continued to develop and by the 30th had intensified into a well-marked cyclonic storm moving towards the south Coromandel coast. The storm was a short distance north-east of Trincomalee on the 31st. It crossed the coast between Pamban and Negapatam on the 1st January.	Coromandel Coast.
21	13th to 15th February	Conditions suggested the existence of disturbed weather in the south-west of the Bay on the 13th. On he 14th a disturbance was shown moving towards Ceylon, but on the 15th the unsettled weather disappeared.	Ceylon Coast.

29. The following table shows the action taken by the Meteorological Office, Alipore, in warning the coasts affected by the storms enumerated in the previous table :—

Storm Number.	Hoisting of storm signals.			Warning of ports by cautionary telegrams.

31. I know that I am expressing the views of Mr. Peake as well as my own, when I offer the thanks of the department to the Managers and Superintendents of Tea Estates who have been in charge of the fourth class observatories in the Duars and in Assam. In every case they have shown keen interest in the work of the observers and it would have been impossible to maintain the observatories in an efficient condition without their cordial help.

32. My thanks are also due to the Telegraph Department for the help they have always given in the matter of rapid delivery of the daily weather telegrams and for their hearty co-operation with the Meteorological Department in various other matters.

33. *Office Establishment.*—I am able to report that the office has worked satisfactorily during the past year. Babu Jati Lal De has again earned the thanks of Mr. Peake and of myself for his careful supervision of the Daily Weather Report Section. Babu Satis Chandra Ghosh continues to prove himself reliable.

NOTIFICATION.

No. 255T.—Cess.—The 3rd September 1909.—The following extracts from the Report of the Board of Revenue on the Road and Public Works Cess operations in Bengal for the year 1908-1909 are published for general information.

H. WHEELER,
Secretary to the Govt. of Bengal.

No. 2933A., dated Calcutta, the 23rd August 1909.

From—E. LISTER, Esq., Officiating Secretary to the Board of Revenue, L. P.,
To—The Secretary to the Government of Bengal, Financial Department.

THE HON'BLE MR. F. A. SLACKE, C.S.I.

I AM directed to submit the Board's Report on the administration of the Road and Public Works cesses for the year 1908-1909.

* * * * *

Rate, land revenue demand and gross rental.

3. During the year both cesses were as before levied in the 30 districts at the full rate of one anna in each rupee of the annual value of lands or annual net profits of mines and other immoveable properties. The current land revenue demand for these districts was Rs. 2,85,42,251 and the valuation or gross rental amounted to Rs. 13,33,01,239. The percentage of the former to the latter is 21·4.

Demands, collections, balances and remissions.

4. * * * * The table below is an abstract of the demands, collections, balances and remissions of the year in comparison with those of the former two years :—

Year.	Demand.			Collections.	Percentage of total collections on current demand.	Balance.	Percentage of the balance on the total demand.	Remissions.
	Current.	Arear.	Total.					
	Rs.	Rs.	Rs.	Rs.		Rs.		Rs.
1906-1907 ...	70,11,936	12,70,766	82,82,702	69,56,766	99·2	13,48,585	16·2	1,12,743
1907-1908 ...	71,20,946	13,51,726	84,72,692	71,97,473	101·07	12,83,256	15·1	67,756
1908-1909 ...	73,92,311	12,83,289	86,75,600	73,17,693	98·9	13,58,529	15·6	98,306

As compared with 1907-1908, the current demand of the year under report increased by Rs. 2,71,365. The increase is particularly noticeable in Burdwan (Rs. 1,39,731) and Manbhum (Rs. 99,788) and was chiefly due to the annual valuation of the existing mines and to the first assessment of new mines which were opened in consequence of the recent development of the coal industry. The growth of the cess demand from Rs. 7,974 to Rs. 29,698 in the Sonthal Parganas was the result of valuations recently completed.

5. In some of the districts, notably in Bankura (Rs. 5,497), Hooghly (Rs. 9,871), Darbhanga (Rs. 5,981) and Singhbhum (Rs. 1,959), there were counterbalancing decreases in the current demand. The decrease in Bankura was the effect of the recent revaluation completed in 1907-1908. In Hooghly it was due to the transfer of a number of rent-free lands to Burdwan for amalgamation with the estates borne on its revenue roll. In Darbhanga it was partly due to the transfer of an estate to Muzaffarpur and mostly to the general revaluation of the district by which a more correct assessment was obtained, based on the settlement records. In Singhbum it was due to the annual revision of assessments of mines and forests.

6. Simultaneously with the increase in the current demand, the collections increased by Rs. 1,20,220. The year was, however, generally unfavourable to the voluntary payment of cesses, and the provincial percentage fell from 101·07 to 98·9. The balances were larger than in the past two years, and the percentage of the balance rose slightly above that of the previous year. The difference of Rs. 33 between the closing balance of 1907-1908 and the opening balance of the year under report was due to a subsequent adjustment of accounts.

7. The largest remissions were granted in Burdwan (Rs. 47,662), Hooghly (Rs. 11,320), Bankura (Rs. 7,912), Manbhum (Rs. 6,758) and Gaya (Rs. 5,275). The bulk of the remissions in Burdwan and Hooghly was due to the amalgamation of rent-free lands and was therefore nominal. It was also due to some extent in Burdwan to the transfer of estates to other districts, the cancellations necessitated by double assessments, and the revision of assessments of coal mines. In Gaya the remissions were due to the correction of mistakes and to the elimination of double assessments of rent-free lands. In Manbhum, Rs. 2,235 were reduced by the amalgamation of rent-free lands with their parent estates at the last revaluation; Rs. 1,358 were remitted by the Deputy Commissioner on appeal; and a further reduction of Rs. 3,165 was sanctioned by the Commissioner in exercise of his revisional powers under section 93 of the Cess Act.

Working of the certificate procedure.

10. The number of certificates filed for the realisation of cess arrears was 83,736 as against 80,502 of the previous year. There was a noticeable increase in the number of institutions in Bankura (998), Nadia (752), Patna (1,768), Muzaffarpur (1,582) and Darbhanga (1,177). In Bankura it was due to the fact that certificates had to be issued for the realisation of arrear cesses for rent-free lands, which had been amalgamated with their parent estates, and also for the speedy recovery of some petty arrears, which would otherwise have been time-barred. In Nadia and Patna, the issue of a larger number of certificates was rendered necessary owing to the unpunctuality of the proprietors in paying cesses at the close of each kist. The increase in Muzaffarpur and Darbhanga was practically due to the more prompt issue of certificates within the year. The decrease in the number of institutions is most marked in Burdwan (677), Hooghly (779), the 24-Parganas (803) and Bhagalpur (580). In Burdwan it was due to the fact that a large number of rent-free and *chaukidari chakran* lands, the holders of which are habitual defaulters, were amalgamated with the parent estates. The decrease in Hooghly was due to the transfer of some rent-free lands to Burdwan for amalgamation. The decrease in the 24-Parganas was explained to be due to the increase of voluntary payments on the part of the cess-payers as a result of better harvests in the district. In Bhagalpur, the decrease is reported to be due to the fact that in 1907-1908 many certificates for sums below Rs. 5 had to be issued in order to prevent petty arrears being barred by limitation; that certificates in the case of a comparatively large number of revenue-free estates were issued in 1907-1908; and that during the year under report more vigilance was exercised in the case of big proprietors, and prompt payments were enforced in communication with the local agents.

11. Including 20,829 certificates pending from the previous year, the total number of certificates aggregated 104,565. Of these, 83,524 were disposed of during the year, leaving 21,041 cases pending, as against 2,829 at the close of the previous year. The percentage (20·1) of pending cases to the total number for disposal was almost the same as in the past year.

* * * * *

Objections against certificates.

12. The objections against certificate cases and disposals of the objection were less than in the previous year, being 5,259 and 5,190, as against 5,455 and 5,356, respectively. In 1,389 cases, as against 941 of the previous year, the certificates were cancelled on account of such normal causes as the death and desertion of judgment-debtors, non-traceability of the actual holders, double assessments, the

exemption of lands lying within municipal limits, non-registration of the names of rent-free holders who pay cesses to the Collector, and errors in the land registration registers and the cess ledgers. The number of cases in which reductions were made in the certificate demand was 119 as against 146 of 1907-1908.

Stage of procedure at which demands were satisfied.

13. The mere issue of preliminary notices under the Certificate Act was sufficient to secure payments in 23,531 cases. Notices for the sale of the defaulters' moveable and immoveable properties induced payment in 33,168 and 13,832 cases, respectively. In 1,779 cases only (as against 1,893 of 1907-1908) was recourse had to actual sales before the demands were satisfied. Of these sales, 878 (as against 932 of 1907-1908) were set aside under sections 20 and 21 of the Certificate Act.

Valuations and revaluations.

14. During the year valuations or revaluations, partial or complete, were in progress in 14 out of the 30 districts to which the Act is applicable. * * *

15. It is worthy of notice that the annual valuation of profits derived by owners and occupiers of coal miners in the Asansol subdivision of Burdwan has resulted in an increase of Rs. 1,13,011 in the cess demand. Satisfactory results were also obtained by the annual assessments of mines and forests in the Chota Nagpur Division.

* * * * * *

Gross rental.

19. * * * The gross rental of the province shows an increase of Rs. 45,44,379 over that of the previous year. This increase was mainly confined to Burdwan (Rs. 22,34,784), the Sonthal Parganas (Rs. 5,72,773) and Manbhum (Rs. 15,96,608).

GENERAL SUMMARY.—The rainfall during the week was general all over the Province. The fall was very heavy in Darjeeling. It was heavy also in parts of Lower Bengal and in Gaya, the Sonthal Parganas and Singhbhum. In the rest of the Province it was generally moderate. The heavy rain in Lower Bengal caused floods in several districts. Damage to autumn crops and winter paddy is apprehended in Burdwan, Midnapore, Hooghly, Howrah, Murshidabad and Jessore. Some injury is also reported from excessive rain in Shahabad and by cyclonic weather in Champaran. Insects have damaged *gora* paddy and *gondli* to some extent in Ranchi. The moderate rainfall received during the week in Bihar and Orissa has been beneficial, and the condition of the standing crops in these tracts is good. The price of common rice has risen in Patna and Champaran, and has fallen in Burdwan, Gaya, Shahabad, Darbhanga, Monghyr, Purnea, Balasore, Angul, Puri, Sambalpur, Hazaribagh, Ranchi and Palamau. Cattle-disease is reported from Nadia, Khulna, Patna, Shahabad, Champaran, Muzaffarpur, Darbhanga, Bhagalpur, Balasore, Angul, Puri, Sambalpur, and from Chota Nagpur excepting in Singhbhum. The supply of fodder and water is sufficient throughout the Province.

SUMMARY OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL AND IN EASTERN BENGAL AND ASSAM FOR THE MONTH OF JULY 1909.

THE month opened under ordinary monsoon conditions, with light or moderate rain fairly general and a steep pressure gradient in the north of the Bay. Towards the end of the first week rainfall diminished considerably and the mean temperature was slightly above normal. These changes were associated with the formation of depression at the head of the Bay.

On the 10th, the amount of rain received in Assam increased somewhat and by the 15th rain was again nearly general over the two provinces.

Towards the middle of the month mean temperature was in defect over the whole area, and the pressure was above normal.

At the beginning of the third week the barometer fell below its average value in regions to the south-west of Bengal and remained thus until the end of the month. There was a reduction in the amount of rain received by Orissa and Chota Nagpur owing to the existence of a shallow depression over the Central Provinces. Another depression in the Bay at the end of the month was responsible for a general increase in the rainfall in Bengal, Bihar and Eastern Bengal associated with a mean temperature below normal.

On the whole month the amount of rain received was less than usual.

The defect was 5 per cent. in Bihar,
13 per cent. in Assam,
19 per cent. in Bengal,
22 per cent. in Chota Nagpur,
31 per cent. in Eastern Bengal.

The amount of cloud was less than usual in Eastern Bengal and Assam.

Humidity was practically normal throughout the month.

Summary of temperature.—The highest temperature recorded was 97·9° at Gaya and the lowest 69·9° was recorded at Ranchi.

The following table gives the summary of the temperature of each of the seven meteorological divisions of the Provinces of Eastern Bengal and Assam and of Bengal for the month of July 1909:—

Summary of rainfall.—The rainfall work of the Province has been placed in the hands of the Director of Agriculture, Bengal, and the usual data regarding the actual and normal rainfall during the month are published by that officer. A short table, however, is attached to this report, giving the rainfall recorded during the month at the head-quarters of the various districts of the Province.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

o, overcast; g, dark gloomy; t, thunder; d, drizzling rain; p, passing temporary showers.

RESOLUTION.

THE Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject, and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians who desire to return to their country and by students who, owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, in the form appended to this Resolution, signed by the head of the district (in a Presidency town, the Commissioner of Police) in the case of residents of British India and by the Political Officer in that of residents of Native States. PROCLAMATION OF SALE.

(Section 287 of the Code of Civil Procedure.)

DISTRICT HOOGHLY.

In the Court of the Certificate Officer, Hooghly Collectorate at Chinsura.

EXECUTION CASE No. 255 OF 1902-03.

Secretary of State for India, decree-holder, against Quazi Bashir-ar-Rahman, of Govindapur, a pati of Furfura, thana Krishnanagar, judgment-debtor.

NOTICE is hereby given that, under section 284 of the Code of Civil Procedure, an order has been passed by this Court for the sale of the attached property mentioned in the annexed Schedule, in satisfaction of the claim of Rajapur Drainage, cost due to the decree-holder in the suit mentioned in the margin, amounting with costs and interest up to date of sale to the sum of Rs. 20,903-2-4 (Rupees twenty thousand, nine hundred and three, annas two and pies four only).

Suit No. 255 of 1902-03 decided by the Certificate Officer of Hooghly in which the Secretary of State for India was plaintiff, and Quazi Bashir-ar-Rahman was defendant.

The sale will be by public auction, and the property will be put up for sale in the lots specified in the sale Schedule. The sale will be of the property of the judgment-debtors above named, as mentioned in the Schedule below; and the liabilities and claims attaching to the said property, so far as they have been ascertained, are those specified in the Schedule against each lot.

In the absence of any order of postponement, the sale will be held by the Certificate Officer at the monthly sale commencing at 12 o'clock on the 23rd September 1909 at Chinsura Court. In the event, however, of the debt above specified and of the costs of the sale being tendered or paid before the knocking down of any lot, the sale will be stopped.

At the sale the public generally are invited to bid, either personally or by duly authorized agent. No bid by, or on behalf of, the judgment-creditors abovementioned, however, will be accepted; nor will any sale to them be valid without the express permission of the Court previously given. The following are the further

Conditions of sale.

1. The particulars specified in the Schedule below have been stated to the best of the information of the Court, but the Court will not be answerable for any error, mis-statement or omission in this proclamation.

2. The amount by which the biddings are to be increased shall be determined by the officer conducting the sale. In the event of any dispute arising as to the amount bid, or as to the bidder, the lot shall at once be again put up to auction.

3. The highest bidder shall be declared to be the purchaser of any lot, provided always that he is legally qualified to bid, and provided that it shall be in the discretion of the Court or officer holding the sale to decline acceptance of the highest bid when the price offered appears so clearly inadequate as to make it advisable to do so.

4. For reasons recorded, it shall be in the discretion of the officer conducting the sale to adjourn it, subject always to the provisions of section 291 of the Code of Civil Procedure.

5. In the case of moveable property, the price of each lot shall be paid for at the time of sale or as soon after as the officer holding the sale directs, and in default of payment the property shall forthwith be again put up and sold.

6. In the case of immoveable property, the person declared to be the purchaser shall pay immediately after such declaration a deposit of 25 per cent. on the amount of his purchase-money to the officer conducting the sale, and in default of such deposit the property shall forthwith be put up again and sold.

7. The full amount of the purchase-money shall be paid by the purchaser before the Court closes on the fifteenth day after the sale of the property, exclusive of such day, or if the fifteenth day be a Sunday or other holiday, then on the first office day after the fifteenth day.

8. In default of payment of the balance of purchase money within the period allowed, the property shall be re-sold after the issue of a fresh notification of sale. The deposit, after defraying the expenses of the sale, shall be forfeited to Government, and the defaulting purchaser shall forfeit all claim to the property, or to any part of the sum for which it may be subsequently sold.

Given under my hand and the seal of the Court, this 4th day of September 1909.

SYAMA KUMUD MUKERJEE, Certificate Officer.
